

## Mud Pies

Very messy, but very good fun..... have a go at squelching mud in between your fingers and create something a little bit different

### What you need:

Old clothes and an understanding person who is going to wash your clothes!

Spade and some mud

Bucket/bowl

Jug and water

Twig (to stir the mixture)

Paper and a brush

Decoration - stones, flowers, leaves

Brush (to clear up afterwards)

### What to do:

- Mix mud with water using a jug. You're aiming for a mixture that is not too stiff or sloppy
- Stir mixture with twig

You could make mud sculptures, create a mud animal house with sticks and leaves, turn an area into a mud kitchen complete with pots and pan or paint a picture with mud.

**Remember - making mud pies, sandwiches or cookies are fun, but they aren't delicious. Avoid putting in your mouth!**

- Clean the area with a brush and wash your hands thoroughly with soap and hot water when you have finished.
